VIRTUAL Lesson 5 File List

Below is a stand-alone list of the files for VIRTUAL Lesson 5.

"VIRTUAL Lesson 5 General Teacher's Guide Mammal Survey"

This document contains the overall instructions and background for the activity for the teacher.

"Mammal Survey Introduction- Tracks and Scat Exploration"

A pdf presentation aimed to introduce the activity to students, show real locations, and promote discussion in the class.

"Tracks for VIRTUAL Learning"

This pdf contains images of the tracks and scat with rulers laid over them so students can read measurements virtually.

"Animal Information Sheet for Stations"

This document contains information about the tracks and scat of the four animals featured in this lesson. Students must reference this information to determine which animal's tracks and scat they are looking at at each "station."

"Student Data Collection Packet" (and associated Teacher's Guide)

A packet for students to record their data. Although students work in a group and should have the same data, each student should record their own data individually. Note that each packet has 7 pages. <u>There is a separate teacher's guide for this document.</u>

(Optional) "Yurok Ancestral Territory Map"

This map shows the real life locations that correspond to each station. Show students the map to give them a sense of where the virtual stations are located.

"VIRTUAL Lesson 5 File List"

__This document. A list of all files for VIRTUAL Lesson 5.
