

EXPLORING CONDENSATION

Observation Sheet

Write your observation about your empty cup prior to adding ice and water here. Write everything you notice, even if it seems boring and obvious!

Put your ice cubes and water in your cup and start your timer! Write down your observations at the time intervals below. Pay particular attention to what you see on the outside of the cup. If you see water droplets what is their shape and size?

Additional Observations

Think it Through

What did you find on the outside of your cup? Where did it come from?

Write down other thoughts, observations, or conclusions that you have. Or write about a time you experience condensation prior to this activity!
